

Interactive Visualization

5 Python Libraries for Creating Interactive Plots

- mpld3 ([example](#))
- pygal ([example](#))
- Bokeh ([example1](#), [example2](#))
- HoloViews ([example](#))
- Plotly ([example](#))

Our focus

- ipywidgets
- Plotly

ipywidgets

- interactive HTML widgets for Jupyter notebooks and the IPython kernel
- [GitHub](#)
- [Installation](#)

Plotly

- Web-based plotting platform
- [Official HP](#)
- [Plotly.js Open-Source Announcement](#)
- [Offline Plots in Plotly in Python](#)
- [IPython Notebook Tutorial in Python](#)
- [Plotly Python API](#)
- [Installation](#)
